

## Claremont Primary School

### Covid-19 Visitor Guide

- Please **do not** visit the school if you have any of the following symptoms:
  - A high temperature
  - A new, continuous cough
  - A loss of, or change to, your sense of smell or taste

If you have any of the above symptoms or have been contacted by NHS Track and Trace, please contact the office to re-book your visit. We may ask for confirmation of the guidance or advise you have been given by Public Health England.

- Wearing a face mask whilst on site is mandatory.
- Upon arrival, please sign in at the school office and wash or sanitise your hands **immediately**. You should also follow the 'catch it, bin it, kill it' procedures and wash your hands before leaving the school.
- Please observe strict social distancing (2m) for the duration of your visit.
- If you are working in a specific area, please wipe down any surfaces with antibacterial spray once you have finished.
- **Volunteers & Visitors**- our staff are following the national guidance asked of schools and participating in the Lateral Flow Testing. To further support us, the few who are coming onto site to work with teachers and children would be asked to take part in a LFT where possible. Should you test positive within 48 hours of being in school please do consider whether anyone in school would be considered a close contact. All contact tracing is now done by the NHS Track and Trace Team and not by the school.
